EQuIS® Live

Manage Time-Series Data from Data Loggers

Collect Sensor Data

Support for stationary and portable loggers

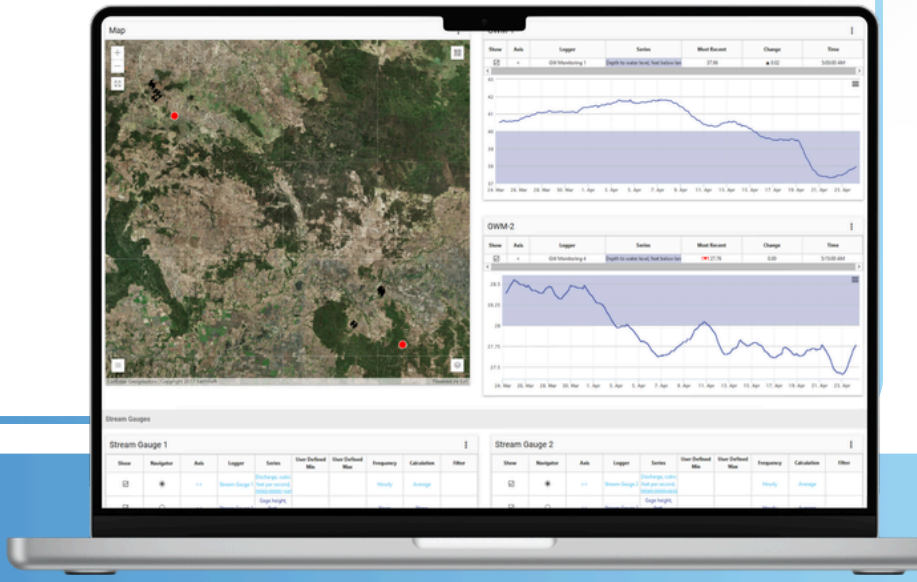

Data loggers and sources supported:

► Company Specific:

- Adcon/OTT
- Campbell Scientific
- Horiba
- Landtec
- Solinst
- QED
- Hach/Hydrolab
- In-Situ
- Lorentz
- PME
- Thermo Scientific
- YSI

► Open Data:

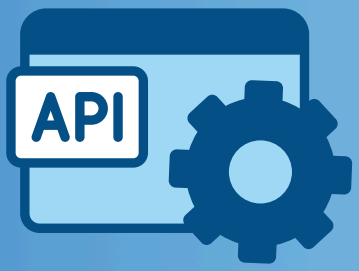

- EPA (AirNow)
- WeatherUnderground
- NOAA (NCDC)
- USGS (EDDN and Water Services)

Database Input Options

Automated data collection via telemetry

Automated open data

EQuIS® Live

View Time Series Data

- Dashboards, Alerts, and Reports
- Integrate with ArcGIS and ArcGIS Server
- Compare multiple data sources for QC purposes

Manage High Volume Data

Support and Store Sensor Data

- High Volume (100 M/year)

Generate Aggregated Data

- Daily, Hourly, Weekly...
- Min., Max., Avg., Sum, and Variance

Add Annotations

- Qualifiers/Flags
- Remarks

Define Thresholds – Send Alerts

- Acceptable Range
- Expected Frequency

Use Optimized Data Structure

- Maximize query performance
- Concise data structure
