EQuIS®

Enterprise and Schemas

EQuIS Enterprise product levels (Basic and Premium) combine Enterprise automation and workflows with specific EQuIS Schemas. EQuIS Enterprise provides advanced workflow automation for efficient and reliable data loading, data quality checks, reporting, and graphics/visualization through web browsers.

Make data-driven decisions with user-defined dashboards comprised of a library of widgets and query-building tools to view data via charts, graphs, maps, tables, and other visualization options. Visit our Dashboard Gallery.

Basic

- Standard EQuIS Formats (EQEDD, EFWEDD, ESBasic, EZEDD, EZLithology, Flow, WaterLevel, and more)
- Advanced Schema and tables, views, reports and formats to support client EDD format
- EDDs and Formats: USEPA Regions 2, 3, 4, 5, 7, and 9; CA GeoTracker, LA, MN, MT, NY, TX, and other states; SEDD; NEDD; ERPIMS
- Vapor Intrusion Package
- EQuIS Alive, Collect, DQM, and SPM (licensed separately)

Premium

- Schema extensions included in Enterprise Basic
- Live – High-frequency time series data, data loggers, sensors, and other Internet of Things (IoT) sources
- USEPA Water Quality Exchange (WQX) Package
- USEPA Air Quality System (AQS) Package
- EQuIS Geotech (licensed separately)

EQuIS® plan·engage®

EQuIS PlanEngage transforms disparate data into meaningful insights and improves project and stakeholder engagement through a single, unified interface. It securely connects EQuIS data with GIS, documents, financial reports, and other business data, offering a comprehensive view of trusted information sources. With interactive maps, dashboards, and 3D visualizations, PlanEngage enhances engagement, builds transparency, and aids decision-making.

EQuIS REST API License & Table Export Processing Option

The EQuIS REST API allows software applications to communicate with EQuIS via standard HTTP methods. It facilitates data exchange between EQuIS Enterprise URLs and supports OData for direct interaction with EQuIS tables and records. Users can also connect EQuIS to Microsoft Power BI or ArcGIS Pro Desktop through the API. Additionally, the Table Export process automates scheduled exports of EQuIS tables for integration with data lakes and warehouses, requiring an active EQuIS REST API subscription.

EQuIS Geotech

EQuIS Geotech extends the EQuIS software suite for geotechnical data management workflows. EQuIS Geotech licensing includes a separate Schema, format files, numerous standard reports and templates, widgets, and configured dashboards. Additional EQuIS software requirements will apply.

AI enabled comprehensive and advanced knowledge management portal.

EQuIS® HELIOS

EQuIS Helios acts as a central hub for storing and searching data and documents from multiple sources. EQuIS Helios enhances information management and streamlines processes and collaboration.

EQuIS®

Professional – Product Libraries

EQuIS Professional is bundled with specialized applications according to specific functional libraries.
Requires EQuIS Enterprise license.

Standard

Includes: All Professional features to enter, edit, query, analyze, and visualize data; EDP; free formats; 100s of standard reports; interfaces for Google Earth, LeapFrog, R-Project, MiniTab, and more

Data	Graphics	Combination
PlusD ✓ **Standard** ✓ **Formats:** USEPA Regions 2, 4, 5, and 9; States of LA, MN, MT, NY; CA GeoTracker; ERPIMS; SEDD; NEDD; WQX; Sanitas and ProUCL (export only); Scribe; HazSite; NetDMR	**PlusG** ✓ **Standard** ✓ **Graphics and Visualization Interfaces**: Surfer, LogPlot, RockWorks, EVS, GMS, Groundwater Vistas, gINT, CARStat, AquaChem, GWSDAT, FEFLOW	**PlusDG** ✓ **Standard** ✓ **PlusD** ✓ **PlusG**
PremierD ✓ **Standard** ✓ **PlusD** ✓ **EQuIS Link** ✓ **SPM** Sample Planning Module ✓ **DQM** Data Qualification Module ✓ **AQS** Air Quality System Package	**PremierG** ✓ **Standard** ✓ **PlusG** ✓ **Graphics and Visualization Interfaces:** ArcMap, ArcScene, AutoCAD (DWG, DWS, DXF, DWT)	**PremierDG** ✓ **Standard** ✓ **PremierD** ✓ **PremierG**

Decision Support Products

These add on products can be acquired separately to enhance any of the EQuIS Professional product libraries.

- EnviroInsite
- Alive
- Risk3T

Data Acquisition Products

These products can be acquired separately to support EQuIS data collection and processing workflow.

- Collect
- EDP Standalone
- External Data Submitter
